BAY TREES.

(Laurus Nobilis.)

These are now extensively used for store and lawn decorations and are most useful for all kinds of decorative work. They are hardy and will stand rough usage. They are easily cared for and should pay for themselves the first season. A pair of either pyramids or standards in front of any store will attract attention and customers. Our prices are for trees due to arrive by April 10th.

BEGONIAS. FLOWERING SORTS.

the greatest gem in winter-flowering Begonias yet introduced, and is certain to become a popular favorite. It grows from 10 to 12 inches high, forming naturally graceful bushy specimens, which from October to April are completely hidden in soft, rosy pink flowers. Many thousands have been grown throughout the country the past winter for Christmas sales, selling at the highest prices. It has been used by the Chicago florists for centerpieces in table decorations. Young plants bought in July and August will make fine specimen plants for Christmas sale, in 6 to 8-inch pots, which sell for \$1.00 to \$5.00 each. If planted in 6 or 8-inch wire hanging baskets, will make a grand show. We will have 25,000 strong, healthy plants, well established in 2½-inch pots, ready to send out the latter part of July and August. You cannot afford to be without this grand Begonia. Get your order in early to assure early shipment. Price, strong 2½-inch pot plants, per doz., \$2.00; per 100, \$15.00; per 1000, \$140.00.

Pink Lorraine. A sport from the above. It is a formation of the price of the strong and the plants.

Pink Lorraine. A sport from the above. It is a few shades lighter in color, but the store men have decided that it holds the blooms even better than the parent. S15.00 per 100. Ready in July and August.

BOX TREES.

(Buxus Sempervirens.)

Very useful for decoration either in stores, verandas or lawns where something cheaper than Bay Trees are wanted. They are equally as hardy and stand all the rough treatment that Bay Trees do. Our importation arrives about April 10th, when we will have a lot of nice shapely trees in various sizes and shapes. Prices do not include tubs.

BOUGAINVILLEA GLABRA

SANDERIANA.

Strong plants, 4-inch pots, each, 20c.; doz., \$2.00.

BROWALLIA GIGANTEA.

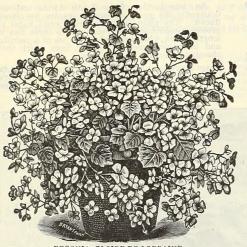

A charming new flowering plant that may be put to many useful purposes; the plant is a strong, compact, bushy grower, producing a profusion of florets about 1 to 1½ inches in diameter, of an intense indigo-blue, fully as intense as the Marie Louise or California Violet, it bids fair to supplant the Lobelia as a bedding plant; it is valuable for cut flowers, as it is never out of bloom, and may be grown as a flowering plant for Easter sales. Doz., 75c.; 100, 86.00.

BOX TREE.

THE ORANGE VIOLET.

(Browallia Jamesoni.) Inasmuch as Browallia Speciosa Major is now popularly known as the Giant Violet we think the Orange Violet a good name for this plant. It is a well-known but neglected beauty, which would create a still greater sensation than its violet colored sister, even with less care. Well grown specimens, a foot or two across, are really grand, the innumerable bright orange flowers giving it the appearance of a golden bush. If propagated from slip cuttings it blooms as soon as rooted and almost perpetually afterwards. Fine for hanging baskets and window boxes. Each, 10c.; doz., \$1.00; per 100, \$7.00.

BEGONIA. GLOIRE DE LORRAINE.

VAUGHAN'S PLANTS Are well grown, properly labeled, and packed just right. BEST VALUE IN AMERICA.

LARGE FLOWERING BROWALLIA

FANCY-LEAVED CALADIUMS.

FLOWERING BEGONIAS.

HAAGEANA ERECTA. A grand flowering sort with large, hairy leaves. A very free bloomer, sending up long erect sprays of extra large bright pink flowers. 2½ in. pots, each, 10c.; doz., \$1.00; per 100, \$8.00. 3-in. pots, each, 15c.; doz., \$1.50; 100, \$12.00.

ERFORDI. It is continually covered with clusters of rosy-salmon flowers. An excellent variety for bedding.

WHITE ERFORDI. Same as above, but pure white flowers.

M. DE LESSEPS. Purplish bronze leaves with silver dots all over the surface. A grand pot plant with exceedingly handsome sprays of pinkish flowers.

RUBRA. One of the finest shrubby Begonias in cultivation; has dark, glossy green leaves; scarlet flowers produced in abundance.

THURSTONI. A beautiful, stately plant, with remarkably handsome foliage. Flowers, rosy-white, in large clusters.

VERNON. Grand for summer bedding. Will stand the sun like a geranium. Price, except noted, 2½-in. pots, doz., 60c.; per 100, \$4.00. 3-in. pots, doz., \$1.00; per 100, \$8.00.

BEGONIAS. Rex Sorts. We can supply in 8 named sorts our selection. 2½-in. pots, per doz., 75c.; per 100, \$6.00.

NEW CACTUS .- PHYLLOCACTUS.

(Deutsche Kaiserin.) A grand new flowering Cactus from Holland. A curious plant with thin wide fleshy stems, the edge being covered with fine little puckers. When full grown it forms a bushy plant about 18 inches high. Flowers throughout the year. The flowers are crab-shaped, fully three to four inches long and of a beautiful rose-pink color. The stem and foliage are a light green, and combined with the pink flowers are magnificent. Will thrive in any living room and stand almost any kind of treatment. Price, each, 15c.; 12 for \$1.50; 3 in. pots, strong blooming size, each, 25c.; 12 for \$2.50.

FANCY=LEAVED CALADIUMS.

Dry Bulbs, 1½ to 2 in. in diameter. For window boxes, show plants or green-house growing, this is one of the most decorative plants. Rich, thrifty leaves, handsomer than Begonias; marbled, veined and striped with white, pink and dark red. Bulbs should be started into growth about April 1st, in a warm house. Price, named sorts, per doz., 10-15 varieties, \$1.50; per 100, \$10.00.

GIANT FLOWERING CALADIUM.

New Giant Flowering Caladium.

In general appearance this plant somewhat resembles the common Caladium (C. Esculentum), but is entirely distinct, being much larger and grander, and vastly superior in every way. The flower resembles a giant Calla and remains open three days and nights; first two days it is of the purest snow-white, the third day it changes to a pale yellow. It is of the easiest culture, enduring adverse conditions well, and the leaves attain a great size even in small pots. Give it rich soil, the richer the better, and plenty of water. The plant can be taken up in the Fall and wintered in the house or cellar. Price—Strong, well-rooted plants, 2½-inch pots, each, 10c.; 12 for \$1.00; per 100, \$6.00. Large plants from 4-inch pots each, 20c.; 12 for \$2.00. Mammoth size, 7-inch pots, each, \$1.00. Strong dormant bulbs, suitable for 4-inch pots, each, 15c.; doz., \$1.50.

CALLA, LITTLE GEM.

TRUE LITTLE GEM OR MINIATURE. The plant is a miniature form of the old-fashioned Calla. A full-grown specimen stands only eight or ten inches high. Per doz., 50c.; per 100, \$4.00.

CAMELLIAS. Double white, pink, red and variegated. Named sorts; plants 18 inches high, without buds. Eacn, \$1.00; doz., \$10.00.

CASSIA ALATA — MRS. TEMPLE. A new variety of Cassia, a good thing for late summer blooming the same as Salvia Splendens. If used for planting around a red flowering Canna bed 3 feet apart it makes a magnificent show. Also grand for planting around Canna Black Beauty or among grasses, besides making a very showy border plant. Covered with Pea-shaped flowers of a deep yellow through August, September and October. Strong plants, 2½-inch pots, each, 25c.; doz., \$2.00.

CASTOR BEAN. Tall and dwarf, doz., 50c.; per 100, \$4.00.

CENTAUREA GYMNOCARPA. Per 100, \$2.50.

CHRYSANTHEMUM FRUTESCENS.
Paris Daisy, or Marguerite.

California White. Extra large flowers. Per doz., 50c.; per 100, \$3.50.

Etoile d'Or. Large yellow. Per doz., 50c.; per 100, \$3.50.

COBÆA SCANDENS. Per 100, \$5.00.

GRAND BEDDING COLEUS.

ANNA PFISTER. Pointed leaves 6-8 inches long with deep scalloped edges, giving it a Croton-like appearance. Color of the foliage is a bright golden yellow intermingled with green and crimson. Habit of growth is compact and bushy, rarely attaining a height of over 6-8 inches and measuring 10-12 inches across. When bedded they make a very fine show and much more graceful than the old varieties of Coleus. Each, 10c.; doz., \$1.00.

JOHN PFISTER. Same character of foliage as the Anna Pfister; also the same habit and growth, the difference being in the coloring of the foliage, which is a bright crimson, edged and topped with old gold. Very striking. Each 10c.; doz., \$1.00.

BRILLIANCY. Enormous leaves like a Rex Begonia. Yellow, crimson, pink and green coloring. Vigorous habit, growing 2 to 2½ feet. Very fine for pot sales. Each, 10c.; doz., 60c.; per 100, \$4.00.

Our general selection of Coleus are all of the best old and tried varieties. We have a large stock and are prepared to take care of all orders for such as Dewey, Cuba Libre, Sampson, Miltoniana, John Rogers, Verschaffeltii, Golden Bedder, Beckwith Gem, Herman Sudermann, Pres. Eleven Grand New Carnations

Strong Rooted Cuttings for Early Delivery.

FLAMINGO (Marquisee).

Dark scarlet, large full flower with a 30-inch stem, which holds up the flower perfectly. Scored 90 points at Brooklyn, taking the S. A. F. Silver Medal and the Lawson Silver Medal and winning out over Adonis.

INDIANAPOLIS (Baur & Smith). The color is a very bright shade of clear pink without a trace of either blue or salmon, and the color holds its brightness until the bloom goes to sleep. In size, 3 to 3 ¾ inches.

LADY BOUNTIFUL (Dorner & Son). Color, pure glistening white. Size, full 3 x 3½ inches. Form perfect, ideal for a high grade commercial carnation. Stem, 25 inches and over; stiff and wiry. Fragrance, spicy clove. Substance of the very best; a very strong feature is its excellent keeping and shipping qualities. Habit, ideal; strong, clean, healthy, upright growth. Early, free and continuous flowering and also an early and easy propagator.

MRS. M. A. PATTEN (Fisher). A splendid new variegated variety; white with distinct red stripes. It is said to be an improvement over Mrs. G. M. Bradt both in form and color, and in habit of growth.

NELSON FISHER (Fisher). Large flowers of cerise pink Claimed to be an improved Lawson, which it closely resembles.

THE BELLE (Dorner & Sons). A companion to Lady Bountiful, with equally strong points to bring it into popular favor with the grower. A strong clean, healthy growth; a long, stiff stem, a large flower of best form and a non-bursting calyx.

WHITE LAWSON. A sport from the well known variety, Mrs. Thos. Lawson, and identical to that well known sort in every way, except color, which is a pure white.

Prices of any of the above 7 kinds, strong rooted cuttings, per doz., \$2.50; per 100, \$12.00. Write for prices on larger lots.

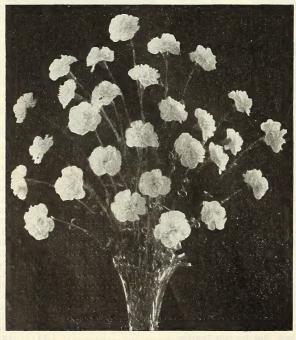

ALBATROSS (Marquisee). A splendid new white variety with good stem. It took first premium for both fifty blooms and twenty-five blooms white at Brooklyn, scoring 90 points, and winning over Governor Walcott and Lorna.

CRUSADER (C. C. Co.). Form is always perfect. Produces strong stems from 20 to 30 inches in length, according to the season. It is a more robust and quicker grower than even the Lawson, and a freer bloomer. Color the same as Crane, and average size of bloom 3 to 3½ inches; very full and slightly fringed.

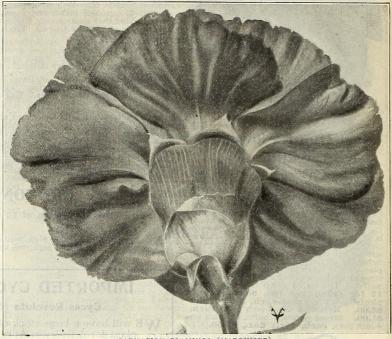

RELIANCE (C. C. Co.). Pure white. The form and size of bloom are its best points, and as a free-bloomer it is hard to beat. Habit of growth is similar to Lawson, though grass is finer and stems more wiry.

SUNBIRD. The strongest, most vigorous and most prolific of the yellows; beautiful form, large flower, stiff stems, early, and will produce fine flowers until thrown out; as free as any standard variety; is universally admired and sells readily.

Prices for the above 4 kinds, per doz., \$2.00; per 100, \$10.00; per 1,000, \$80.00.

ENCHANTRESS. This grand Carnation has fulfilled all that was claimed for it last year and has proven one of the best of its color to date. We hear nothing but good reports from our customers who bought this Carnation last year. It is a fine, strong grower, early and continuous bloomer, giving you only first class flowers and plenty of them. Color, a very pleasing shade of light pink, deepening toward the center. We have a grand stock of healthy cuttings, both in soil and sand, and offer them at, per 100, \$6.00; per 1,000, \$50.00.

ESTELLE. We think now, as we did four years ago, that this is one of the best "bread and butter" scarlets in the trade. Of a fine, rich color and good size; above the average. Very vigorous and free in growth and a continuous bloomer; blooms 3 inches in diameter and over. As a producer it is ahead of Crane. There has never been enough of this Carnation grown to supply the demand. We have an extra large lot of clean, healthy stock and are prepared for the demand sure to be. Write for prices on 5,000 lots. Per 100, \$4.00; per 1,000, \$30.00.

FRAGRANCE. Color, a bright satiny pink, evenly shaded, deepening toward the center. Stem, good. Never splits. Excels all other varieties in rich, clove scent. In habit it is a continuous bloomer. Per 100, 86.00; per 1,000, 850.00.

GOLDEN BEAUTY. Clear, lemon-yellow, slightly tipped with pink at edge of petals. This is by far the most profitable and best yellow Carnation in commerce. 85.00 per 100; 840.00 per 1,000.

GOV. LOWNDES. A grand pure white, measuring 3 to 3½ inch flowers. Long stems and a good bloomer. Per 100, \$5.00; per 1,000, \$40.00.

Its season of blooming is much earlier than White Cloud or Lorna, coming into bloom early in September. A splendid keeper and shipper, and has been overlooked by most growers. Price, \$5.00 per 100; \$40.00 per 1,000.

HARLOWARDEN. Color, bright crimson; 3½-inch flowers and four-foot stems Habit, all that could be desired. Per 100, 86.00; per 1,000, 850.00.

PRESIDENT McKINLEY. The flower is well built and petals perfect. The color is deeper and brighter than Lawson, and the coloring is more distinct. It is wonderfully free and early, and an excellent keeper and shipper. Per 100, 85.00; per 1,000, 840.00.

THE QUEEN. This has proven with many growers to be a grand white of large size and very fine. It is not a tall grower and therefore well adapted for planting on side benches. Per 100, \$5.00; per 1,000, \$40.00.

WHITE BRADT. This variety is identical with Mrs. Geo. M. Bradt (from which it is a sport), except in color. It is decidedly the largest white Carnation yet offered and will sell at fancy prices in any market. Per 100, 86.00.

GANNA FIELDS Western Springs

THE NEW CANNAS we offer have been tested on our own grounds alongside of the 50 odd varieties we grow. They are all desirable, not only different from kinds in commerce, but improvements on their respective colors and types, if not entirely distinct, as is the case with King Humbert—a Canna which every florist should have, as it is sure to become one of our best standard kinds.

FIVE BEST CANNAS FOR 1904.

KING HUMBERT. Grand New Canna, King Humbert. This grand Canna is a cross between the Crozy and the Orchid-flowering class. The flowers are as large as the largest of the Orchid-flowering Cannas, while the petals have the firmness of the Crozy varieties, and it stands all kinds of weather to perfection. The flower is a bright orange-scarlet, streaked with crimson. The foliage is bronze with brownish-green stripes, large thick and leathery; in fact, the finest foliage of all Cannas, combining the beautiful flower stalks with the grand foliage, make an ideal Canna. The plant is an extra strong, robust grower; height, 4 feet. Exceedingly free flowering, strong growing plants. Each, 35c.; doz., \$3.50; per 100, \$25.00.

MILWAUKEE (Vaughan's Seedling, 100). 3½ feet; foliage green; leaves pointed. Flower rich, dark maroon, darker than Duke of Marlboro. We find it the darkest of all Cannas. Each, 30c.; doz., \$3.00; per 100, \$20.00.

PAPA CROZY. A new French Canna. Height, to 5 feet. Dark purplish-bronze foliage, large and massive. The plant is a strong and vigorous grower, throwing up large flower stalks freely, with flowers of enormous size of a beautiful carmine-red, almost always marbled with chrome yellow. This is the largest flower which we know in the genus Cannæ, and will prove a sensational plant. Each, 25c.; doz., \$2.50; per 100, \$18.00.

PAPA NARDY. New French Canna. Height, 4 feet. Green foliage. A strong grower and free-flowering habit; large rounding flowers of a beautiful purplish-crimson. A great show when massed on account of its attractive color and free-flowering habit. A sensational plant. Each, 30c.; doz., \$3.00; per 100. \$20.00.

ST. LOUIS (Vaughan's Seedling, 801). 5 feet. Foliage dark bronze; flower crimson-scarlet; petals large, rounded, with glossy surface. Plant robust grower with 3 to 5 spikes. The dry flowers fall off promptly, making it an ideal bedder. The dark bronze foliage with scarlet flowers makes a contrasting effect. We have grown it two years and it has been greatly admired by all Canna experts. Each, 75c.; doz., \$8.00; per 100, \$50.00.

The Above Set of 5 Best Cannas for \$1.50.

FIVE NEW CROZY HYBRIDS.

BIZARRE. Height, 3 to 4 feet. Foliage, light bronze. The color of the flower is unique, golden-yellow, all lined and striped with dark red. No other Canna has this constant bizarre coloring.

FREDERIC BENARY. Height, 5 to 6 feet. Green foliage. An early bloomer. Its flowers are currant red with orange throat and yellow edge; as large as the Orchid flowered class and much more durable and freely produced.

LEON VARROUD-VIAL. Height, 3 feet. Plum-colored foliage. Spikes numerous, very large, cinnabar red, spotted with dark carmine. A valuable novelty.

MADAME PAUL CAZENEUVE. Height, about 4 feet. Very striking foliage, leathery bronzegreen with dark purple markings, similar to the old variety Discolor. Strong grower. Color of flowers, rose-scarlet. A very effective plant.

SENATOR VIGER. Height, about 5 feet. Very large flowers of a beautiful brick-red, shaded fiery red and finely streaked with golden-yellow. The foliage is green and the habit erect.

ALL THE ABOVE, 75c. EACH; DOZ., \$8.00.

Special Offer.

The Set of 5 New Crozy Hybrids for \$3.35.

Philadelphia, Pa.

I consider this (St. Louis) a magnificent variety and, taking it all around, one of the very best up-to-date Cannas at present in existence, not forgetting any of the fine novelties that have been introduced in the past year or two.

G. C. WATSON.

FOUR GRAND CANNAS.

BLACK BEAUTY (True). Awarded certificate of merit at the Pan-American Exposition. This is undoubtedly the finest dark-leaved Canna in existence. The broad tropical foliage is of the deepest crimson-bronze, the young growth being fully as well colored as that of the finest Dracænas. It is a splendid hardy grower, reaching 5 to 6 feet in height in rich soils. The flowers are insignificant, but the foliage is superb. Each, 15c.; 12 for \$1.50; 100 for \$10.00.

THE EXPRESS. In color it is bright scarlet-crimson, a shade lighter than that of Philadelphia—one of its parents. Large, broad-petaled flowers in immense, compact trusses. The bed is a mass of bloom the entire season. Under most favorable conditions it only attains a height of 3 feet, but generally 2 to 2½ feet. This, added to its free, clean growth, makes it an ideal crimson bedder. Each, 20c.; doz., \$2.00; per 100, \$15.00.

MONT BLANC. Grand New White Canna. This magnificent New Canna is the result of many years of careful hybridizing. Mont Blanc has a vigorous constitution, and produces its large, beautiful white flowers on strong branching stalks well above the foliage. It blooms early and continuously until stopped by freezing weather. Its foliage is bright, glossy green, very large and handsome and so thick and leathery it is not often injured by rain or wind. It is a strong-growing, vigorous variety, and will produce from 15 to 20 flower stalks in a season. Its great masses of snowy-white flowers contrast finely with the splendid crimson and pink varieties. Each, 25c.; doz., \$2.50; per 100, \$20.00.

VICTORY. (Our Seedling of 1897.) Height, 5 to 6 feet. Extra strong, robust grower, throwing up immense flower stalks, each stalk having from 7 to 9 flower spikes. The flowers are of the largest size, petals measuring 14 inches, and suggest a possible crossing of the Italian with the Crozy sorts. In color a bright orange-scarlet with fine crimson veins running lengthwise of the petal and bordered with an irregular band of yellow. We know of no Canna to equal it. Gold medal awarded at the Buffalo Exposition. Each, 35c.; 12 for \$3.50; per 100, \$25.00.

One each of the above 4 Cannas for 75c.

ORCHID = FLOWERED CANNAS. Price, unless noted, for strong 3-inch pot plants, 100, \$5.00.

MRS. KATE GRAY. 6 to 7 feet; green foliage. Immense flowers. Color, a rich orange-scarlet. Per doz., \$1.00; per 100, \$8.00.

PENNSYLVANIA. 5 to 6 feet; green foliage. Flowers of extra size and a deep rich, scarlet color. Per doz., \$1.00; per 100, \$8.00.

ALLEMANNIA. 5 to 6 feet. The outer petals are scarlet-orange, with a very broad, gold-yellow border.

BURBANK. The flowers are fully 7 inches, and the form is really semi-double; toward the inner part of the petals show the fine crimson spots, and all the rest of the flower is of a most beautiful rich canary-yellow. 5 to 6 feet high. Per 100, \$4.00.

ITALIA. Bright orange-scarlet, with a very broad golden border.

Our customers must therefore admit that we ought to know something about Cannas and we do. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a new name only. We also know and had to pay dearly for this knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas as long as the color is only somewhere near correct. To them any red is a Chicago, any yellow a Florence Vaughan, etc. Our Cannas are true to name, and furthermore, the stock we use for propagation has been specially selected on points of vigor true type, color, evenness of height and size of flowers, and our stocks can all, with good right and reason, be called "Improved." Cannas will not all propagate alike, no matter how carefully the selection is made, and a true Chicago or Egandale, for instance, cannot be grown and furnished at as low prices as some common red. We request our customers to take these facts into consideration when comparing prices. With Cannas it is as with other things, the Best is always the cheapest.

Veitchii, is a rich golden yellow, while the heart of the plant presents a bronzy-orange coloring, which is brightest in the center, gradually diminishing toward the tips of the leaves. Each

The New Fern ADIANTUM CROWEANUM

The finest Fern ever introduced to the American trade for cut flower use. New York florists use no other when this fern is to be had. Exhibited at the Milwaukee Convention of the S. A. F.; it was shown in comparison with Adiantum Hybridum and appears to be altogether different. Expert growers all believe that there is a great future for Adiantum Croweanum.

Deliverable July 1st, 1904.

Strong, 3=inch pot plants, per 100, \$35.00; Lots of 250 at 25 cents each.

New Rose GENERAL McARTHUR Hybrid Tea

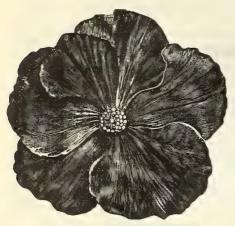

Color by far the most brilliant of any shade of Crimson Forcing Rose ever offered, retaining its brilliancy when fully expanded. It is also one of the very sweetest varieties ever offered, of very easy culture, as it can be grown in the same temperature as an ordinary Tea variety such as Bride. It is a good, strong, vigorous grower, producing stems 24 to 30 inches long, a free and continous producer. It can be grown at much less cost than Meteor or Liberty and is a much brighter color than either. We predict that this will be the Red rose for the multitude. Ready for distribution April 1, 1904.

ISMENE CALATHINA.

Those who are familiar with the true Giant Ismene cannot say enough in praise of its beauty and purity. The flowers are of very large size, like an Amaryllis, novel form and of snowy whiteness, and are also exceedingly fragrant. It is really one of the most lovely of all the Amaryllis tribe, having a peculiar grandeur which one can appreciate at sight, but cannot describe. Bulbs are large and strong and begin to flower soon after planting, sending up tall flower stems, which bear several of its magnificent blossoms. As a pot plant it is fine, and as a garden bulb treated like a Gladiolus it is one of the choicest of all flowers. Do not fail to try it. It will more than please you. Per doz., \$1.25; per 100, \$8.00.

FOUR GRAND NEW GLADIOLUS.

PRINCEPS. One of the finest and most handsome variehigh, with very broad and handsome varies yet produced. It grows from 3½ to 4 feet grand setting for the brilliant Amaryllis like blooms. The color is rich crimson, with intense shadings in the throat, and broad white blotches across the lower petals. The flowers range from five to six inches in diameter, and can be grown to nearly eight inches, under stimulating culture. Each, 35c.; per doz., \$4.00.

WHITE LADY. The finest Pure White large flowering Gladiolus in existence. The petals are undulated, and this relieves much of the stiffuess so often seen in most sorts. The "White Lady" should not be compared with the variety "Snow White" which usually shows a strong reddish cast, and as a matter of fact is not to be classed as pure white. Another point in favor of the "White Lady" is its loug keeping qualities, flowers having kept with ustwo weeks after cutting. Price, each, 35c.; doz., \$4.00.

"1900." Cannot be surpassed for Cut-Flowers and Show Beds. One of the best varieties for florists' use, as its striking combination of color makes it a ready seller. Flower is of a rich shade of red with very prominent white spots on three lower petals. Stems are stiff and last well after cutting. It has a long season of bloom, more so than any other Gladioli we know of and has also an abundance of dark green foliage. Per doz., 50c.; per 100, \$3.50; per 1000, \$25.00.

LILEY. Creamy white, mottled with rosy pink. Strong grower. One of the best light colored varieties Each, 7c.; doz., 75c.

VAUGHAN'S

FLORISTS' FLOWER SEEDS

A TRIP THROUGH NORTHERN EUROPE.

NE of the members of our firm visited the seed and plant growing districts of all Northern Europe the past summer, calling on the principal growers and specialists. Such trips of critical inspection are invaluable to us and indirectly to you, for two reasons. We make certain of the purity of the seed that is being grown for us, and arrange all details of harvesting and trans-shipment so as to eliminate imperfections and error.

We get at the actual merits of the novelties by seeing them grown in quantity, where we can compare them with standard sorts growing under similar favorable conditions of soil, climate and care, for we do not intend to list any variety which is not in some important quality superior to all approved existing kinds.

The very complete notes made by our traveler have been utilized in revising our catalogue for 1904. Careful reading of the following pages, compared with the average lists offered, will illustrate the result of definite knowledge and conservative description.

We not only offer really good novelties, but with them our own specialties and many kinds little known in this country, which we deem of special value and worthy of introduction to our trade.

Our years of practical experience in this country and in Europe, continually reinforced, place us in the best possible position to satisfy the most critical lovers of gardening.

THE CARLSON ASTERS

"THE CARLSON."

A selection of the Pæony-Flowered type, this new Aster is now the favorite in the Chicago cut-flower market. The flowers are large and firm, the stems long and stiff and the colors are decided and pleasing. The plants grow about 36 inches high and come into bloom before the Branching Asters.

Our seed of this is saved from plants that were not blighted and were grown for the seed only. There is also a lot of seed in the market that is saved from inferior flowers, the best having been sold for cut-flowers.

HOHENZOLLERN ASTER.

The finest type of the Giant Comet or Ostrich Feather type of Asters. Much larger than the Giant Comet, the petals longer and more curled and twisted, and produced in greater abundance. Borne on long stems, which makes them cut-flowers par excellence.

Hohenzollern, White. This is considered the grandest Aster ever introduced. Plant tall-growing, branching and bearing on very long stalks, flowers on stalks of from 1½ to 2 feet in length, measure up to 8 inches across, being densely double, finely curled and bearing the greatest resemblance to a large-flowered Japanese Chrysanthemum. Unequalled as a cut-flower and highly effective for tall beds and groups. Trade pkt., 25c.; ¼ oz., 65c.; oz.,

82.50. Hohenzollern, Rose, Crimson, each, trade pkt., 30c.; ¼ oz., 75c.; oz., \$3.00. Hohenzollen, Light Lavender, new, trade pkt., 30c.; ¼ oz., \$1.00.

Our Aster seed is raised by experienced and reliable seed growers, in many cases from our own stock seed, and should not be compared to stock raised in the South or by experimenters who use no care and lack experience.

VAUGHAN'S UPRIGHT BRANCHING ASTER

Early Flowering Hohenzollen Aster.

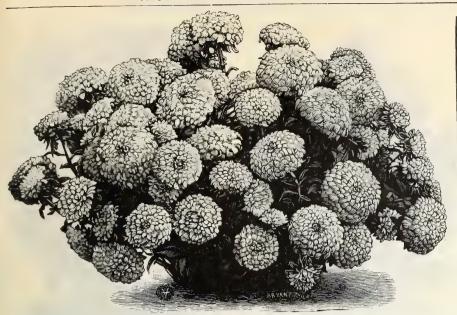

Like the above as to habit and shape of flowers, and about twice as large as those of the Queen of the Market, while just as early as that variety. One of our German seed grower friends writes us. "This is the most perfect of all White Asters up-to-date."

NEW EVER-BLOOMING ASTER, "IDEAL."

This new Aster produces, perhaps, more salable cut flowers to a plant than any other kind. The plants grow from 16 to 18 inches high and are in bloom from the beginning of August to the end of September almost uninterruptedly. In shape the flowers resemble the Victoria type, except that the petals are looser so as to give the flowers a very graceful appearance. LOBELIA, "BEDDING QUEEN."

(Lobelia erinus pumila splendens.)

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsome little bushes which are entirely covered with large flowers of the deepest purple, contrasting most charmingly with the pure white eye. Its freedom and duration of bloom is remarkable, the flowers lasting until late in the Fall. The best Lobelia for carpet beds, borders and pots. Trade pkt., 15c.: 1/2 02., 25c.; 02., \$1.25.

VAUGHAN'S PANSIES.

MASTERPIECE-NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. Trade Pkt., 50c.; ½ oz., 75c.; 25c.; \$5.00.

§1.35; oz.. \$5.00.

PSYCHE. Not one of the many Pansy varieties has such a winning appearance as flower is elegantly curled and undulated and in every respect a beauty in form and color. The characteristic five velvety violet blotches or eyes are surrounded by a broad white edge. Comes true from seed. Trade Pkt., 50c.; ½ oz., 80c.; oz., \$5.00.

BRIDESMAID. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty with the finest Apple-blossom, and most strikingly setting off the dark blotches of the center. Trade Pkt., 20c.; /20.7,50c.; 02.,\$3.75.

RUBY. This new variety embraces the richest shades of red colors from scarlet, scarlet-orange, wine-red to rose. Originating from the Giant Cassier class form of the same regular dwarf habit of the plants and the large size and fine form of the flowers. Trade Pkt. (250 seeds) 25c.

GIANT PRETIOSA.

The flowers of this novelty are similar to those of the Masterpiece Pansy, each petal is marked with a very rose background and the ground color is margined with a pure white edge. A very effective and bright variety, and we are sure that this novelty will please our customers. Trade Pkt. (250 seeds), 25c.

NEW ORCHID==FLOWERED PANSIES. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of the most surprising novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals are marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and sort of plaited, which gives the flowers their resemblance to orchids. The colors range in the terra cotta shadings as well as in the flesh, orange, rose, pink and lilac. Trade Pkt. (250 seeds), 25c.

The Christmas Pepper.

For several years we have For several years we have made a specialty of this Pepper at our greenhouses, where we have grown several thousands in a season. They are ready for the market in October and November, lasting until Christmas, and the plants have sold like the proverbial "hot cakes." The plants grow about 12 to 15 in. high and are covered with their scarlet fruit which stays on for months. It is a selection from the Celestial Pepper, but is now entirely distinct on to months. It is a selection from the Celestial Pepper, but is now entirely distinct from it; the fruit is smaller, more chunky and the plants grow more compact, while the fruit is borne right above the foliage as shown in our illustration, and therefore present themselves to best advantage. This Pepper is of casiest culture. It is one of the prettiest pot plants and everybody can be successful with it. Complete cultural directions are printed on each yackage. 250 seeds, 25c.; 1000 seeds, 75c. The seed we offer is of our own saving.

CHRISTMAS PEPPER.

VAUGHAN'S DOUBLE PETUNIAS.

This is a mixture of the best large flowering and fringed double Petunias. Our seed is saved from plants grown in pots, carefully hand-fertilized, and will produce grand flowers. Of course, everyone knows that only a certain percentage of double flowers may be expected from seed; but our mixture will produce from 20 to 30 per cent of doubles; remainder will be choice, large, single flowers.

Trade Pkt. (600 seeds), \$1.00. Double pure white (250 seeds), 50c.

Dwarf Double Lilliput, produces bushy plants, with small double flowers, which are partly spotted blotched and self-colored; a very pretty plant. Trade Pkt. (500 seeds), 75c.

VAUGHAN'S "ROSE-GROWER" BONE MEAL.

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. ANALYSIS.—Ammonia, 4½ to 5½ percent. Total phosphoric acid, 22 to 25 percent. Total bone phosphate, 48 to 54 per cent.

THE TIME HAS COME that florists must know more about commercial fertilizers if they want to keep up with the procession. The fertilizer question is a very broad and deep one, and one can hardly know too much about it. Much has been said and written about Fertilizers and we consider Prof. Voorhees' book, entitled

"FERTILIZERS"

the most comprehensive on the subject. It is bound in cloth, contains 335 pages and costs \$1.50 per copy. Every Florist should have this.

ADJUSTABLE PLANT STANDS.

The special merits of this stand may be briefly enumerated as follows. The three feet cause it to stand firmly on a carpet or uneven floor. The upright is of three parts telescoped, being easily adjusted to various heights, fastened by means of thumb screws which are well made. The top flange will hold any ordinary pot upright, or by using the four-pronged crotch attachment, a pot can be placed on its side at two different angles, a very useful contrivance for temporary decoration.

It only takes a moment with the Compressed Air Sprayer to pump in air, and there is no more labor required. The reservoir is made of heavy galvanized iron, holding one gallon. ECLIPSE SPRAYER.—No. 1 has a spring brass air pump and tank %-inch Bessemer steel piston, with a first-slass heavy sole leather cup valve especially treated for durability and put together with nuts and washers.

AUTO-SPRAY.

Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop" shown in illustration. Briefly described the "Auto Pop" is an automatic valve which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically, hence the spray is in perfect control. The No. 6 "Iron Age" Combined double Wheel Hoe, Hill and Drill Seeder. This tool is without question the most practical and complete combined garden tool ever offered the public-the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by

which it drills or hills the seed, and the small amount of power required to operate it, are the important features The wheel is made of steel, 16 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. It places the seed in drills or in hills as at 4, 6, 8, 12 or 24 inches apart. Complete in cut, Price, \$11.00.

No 1 "Iron Age" Double & Single Wheel Hoe. Wheel Hoe form of the No. 6 opposite. One great advantage which this double Wheel Hoe possesses is, that it can be made into a practical Single Wheel Hoe in a moment's time. As a double wheel it may be used a stride the row and thus cultiwate both sides of the row at the same time.

The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being ties of the soil as a low wheel will do. The frame being made of pipe coupled to malleable castings, gives great strength together with lightness. Price, complete, \$6.50. A Seed Drill attachment may be applied for sowing in rows only, or sowing both in rows and hills. \$3.50 and \$4.50 respectively. This tool with side hoes only (Iron Age No. 3).

Price, \$3.75.

No. 15 "Iron Age" Combined Single Wheel Hoe, Hill and Drill Seeder. Combined in this tool is the best Hill and Drill Seeder and Single Wheel Hoe ever offered the public. In combining these tools not a

single advantage is lost of a separate Single Wheel Hoe or Seed Drill. As each they are in themselves complete, Changed from one form to another almost instantly, completely filling every desire both as to method of handling seed and soil. It places the seed in hills or drills. Price, \$10.00 As a Hill and Drill Seeder only (No. 16), \$7.50. No. 17 "Iron Age" combined Single Wheel Hoe and Drill Seeder. Same as

tool shown in cut except being furnished without hill dropping device. Price. \$9.00.

No. 20 "Iron Age" Single Wheel Hoe. The frame of this tool

as all the Iron Age, combined tools, is made of pipe coupled to malleable castings, thus rendering them light and strong. A pair of side hoes, a set of cultivator teeth a pair of rakes and a land side plow are furnished with this tool. Price completes \$5.50, as with the No. 1 a seeder attachment may be added at any time. No. 21 plain, (Hoes only). Price, \$3.50.

No. 12 "Iron Age" Wheel Plow and Cultivator.

In the accompanying cut we show a tool of exceeding lightness but of great strength, which is designed to do a greater variety of work than any other tool of the same price, it will accomplish all the work in cultivating needed to be done in a small kitchen garden, plowing, furrowing, covering, hoeing, raking and cultivating. This tool is emphatically a friend of those who can afford only to invest a small amount of money in a gardeen tool, and whose moments in a gardenmust be de. voted to "straight ahead" work.

New Model Seed Drill. Conceded to be for the Market gardener one of the best seeders on the market. The best value in material, durability and True Merit. Each Drill crated and carefully packed for shipment. Packed weighs about 40 lbs. Price, \$7.50, Prepaid.

THE GEM LAWN SWEEPER.

This machine will clean the lawn more thoroughly and quicker than three or four men can do it with hand rakes, and greatly benefit the turf. It leaves the grass standing up straight and straightens up crab grass and other running weeds so they will be cut closer by the lawn mower and sooner destroyed. Made of metal, wood and canvas, and put together in the most durable and thorough manner; this combination makes it lighter and less noisy than all metal. The rakes are flexible (a rigid rake will not pass over obstructions, and will tear the sod if it is uneven); this does not mean that the teeth will bend (and stay bent) if an obstruction is met, but the rake-heads are divided in the middle and each partis hung on easy-swinging hinges, and are kept in position by retaining springs. We sold a number of these machines last season, and all who have used them advise they are the best Lawn Sweepers they have ever tried. Price, each, 813.00. each, \$13.00.

there are no open-ings that can get choked. 'A whole field can be cut with this machine without removing the sod, provided a narrow strip of about one inch in width is taken out at the start. Price, \$21.00.
